

Rimrock Neighborhoods Task Force

May 27, 2014

Dear Billings City Council Member,

As representatives of the Rimrock Neighborhoods Task Force, we ask for your support for inclusion of the 2003 Molt Road/Highway 3 Collector Road Study into the 2014 Long Range Transportation Plan.

With a deadline of May 31st for community response, the Kittelson Interactive Map for the 2014 Long Range Transportation Plan has already received many positive comments in favor of this collector. The most current comments may be read via the link below. We have attached the relative comments as of May 20, 2014 for your perusal.

<http://maps.kittelson.com/billingsprojects>

You may also have read recent articles and opinion statements in The Gazette. We are encouraged by this show of interest in our community for bringing this option back into the 2014 Long Range Transportation Plan.

We hear that this option may be presented to both the city council and the county commission in June and we will be actively encouraging inclusion.

Thank you for your consideration.

Sincerely,

Lyle Gabrian
Interim President
