

**COMMUNITY DEVELOPMENT DIVISION
BILLINGS HOMELESS POINT-IN-TIME SURVEY ADDENDUM**

9-Oct-07

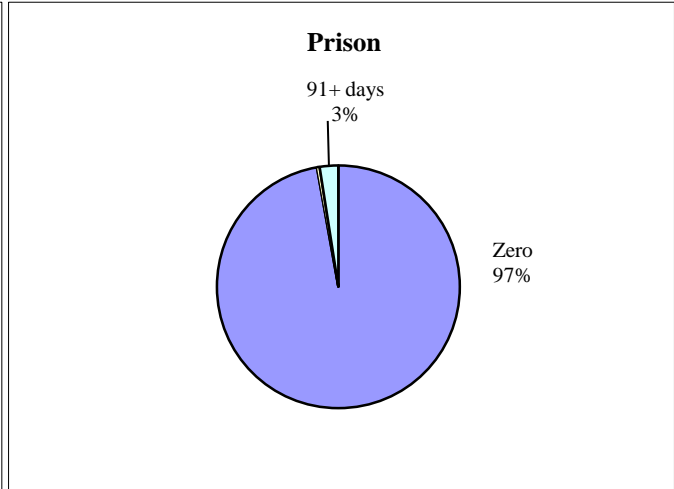

The City of Billings Community Development Division received 283 surveys which were included as an addendum to the Continuum of Care survey. This 'point-in-time' survey was conducted in January 2007.

This 'Billings Addendum' was completed by homeless individuals and may not reflect actual services provided to the homeless. Summary results on costs to serve the homeless in Billings do not include all service programs for the homeless. The Mayor's Committee is working on a Provider Service matrix which should assist in determining additional costs.
